Education] --> B[User pays]; B --> C[Beneficiaries Pay];
```
- 50/50 operational
  - Public Private - infrastructure
  - Developer contributions!
  - Urban form ← community funding
  - Rural vision
  - Community base - gold coin donation
  - Regulative barriers!

## PLANNERS/FUNDERS

### **Fund people or services**

1. Full user pay for PT + private transport
2. Urban form benefits PT
  - urban consolidation
  - developer contributions linked to PT conformity
3. Fund people for PT
4. Maximise bums on seats – spend on mass transit
5. Fare policy to reflect cost
6. Move to less funding of operation move of infrastructure

User pays?

Aim: Mass Transit

Economies of scale

Efficient use of services

## PLANNERS/FUNDERS

### First 5 years

First - Why PT → Economic benefits

+

Efficient - travel barriers → - boarding times  
- route efficiency

Improvements → - integrated ticketing -  
- bus lanes etc

Investment in premium routes

### Actions

- Growth strategies to promote densifications
- Network planning around key destinations and high density locations
- Strong leadership for PT vision
- Legislation reviewed to give PT leadership some teeth / RLTS improvement

Developer contributions / RMA Tax/FBT?

## PLANNERS/FUNDERS

### Measurements

PTAL – public transport accessibility level

fare recovery – 50%

|                  |     |        |
|------------------|-----|--------|
| rides per capita | 60  | Nov    |
|                  | 90  | 20y !  |
|                  | 120 | 50 y ! |
